Looking for on-site calibrations? WE DO THAT!

We offer multi-brand on-site calibrations and repairs to satisfy SQF, BRC, FDA and more. Mettler Toledo/Safeline, Thermo Fisher, Goring Kerr, Fortress Technology, Loma, Lock, Cintex, Ceia plus many more..

Looking for training? WE DO THAT!

We offer on-site training for metal detector basics. This training is designed for operators and maintenance staff. The basics training covers theory of metal detector functionality, common environmental interference problems, proper testing methods and more... Advanced training is also available which includes hands-on approach of how to properly operate your metal detector (i.e. setting up products, adjusting settings and evaluating the system for the root cause of false rejects and failure). Attendees will receive a certificate upon completion of the training course. Suitable for SQF, BRC, FDA and any other certifications.

Looking to repair your new and older equipment? WE DO THAT TOO!

We repair power supplies, CPU boards, search head boards, control modules, water damaged heads and obsolete electronics in our repair facilities. Examples of brands we work on include Safeline, Fortress, Mettler Toledo, Goring Kerr, Thermo-Fisher, Loma/Lock/Cintex and more...
